Net Contents
2 gallons / 256 fl. Oz. / 7571 ml
Packaged in Outsized Container

Suggested Application Instructions

NOTICE:

For single application, dilute at the rate of 1 gallon per acre (per 2500 sq. ft) in a minimum of 10 gallons of water and spray over soil before or during planting.

For multiple applications, dilute at the rate of ½ gallon per acre (2500 sq ft) in a minimum of 10 gallons of water. For best results, apply first treatment before or during planting and second approximately three weeks after sprouting. Additional treatments may be applied on mature fields throughout season/year or at any other time during the growth stage.

For smaller areas and home gardens, mix at the rate of 1.5 ounces of product per gallon of water.

NOTICE: Our recommendations for the use of this product are based upon tests believed to be reliable. The use of this product is beyond the control of the manufacturer. No guarantee, expressed or implied, is made as to the effects of such or the results to be obtained. The buyer must assume all responsibility, including injury or damage resulting from its misuse, as such, or in combination with other materials.

CONTAINS NON-PLANT FOOD INGREDIENTS

Humic Acid and Fulvic Acid – 12% as a carrier for proprietary microbial blend. Inert ingredients – 88%
